Assignment snapshot

Primary outcome	[What must this assignment deliver?]
Key stakeholders	[Names, roles and locations]

Working model	[Remote / hybrid / onsite, travel expectations]
Reporting cadence	[Meetings, status reporting and timesheets]
Dependencies	[Systems, teams, decisions and inputs]
Escalation route	[Client lead and DeepBridge contact]

First-week plan

1. Confirm stakeholder introductions and programme context.
2. Agree immediate priorities, expected outputs and decision points.
3. Validate access, data and system requirements.
4. Confirm reporting, time recording and communication routines.
5. Raise any early delivery or engagement risks with DeepBridge.

During the engagement

- Maintain direct communication on progress, dependencies and risks.
- Tell DeepBridge promptly if scope, location or commercial expectations change.
- Use the agreed route for timesheets, expenses and invoicing.
- Handle client information in line with the assignment agreement and applicable policies.
- Keep DeepBridge informed of extension, transition or offboarding discussions.

ENGAGEMENT STATUS Joining the DeepBridge network or receiving this pack does not create an employment relationship, guarantee an assignment or override the applicable written agreement.
